

SUMMARY

I recently graduated with a degree in Information Technology from Lake Washington Institute of Technology. I'm passionate about web and app development, especially when it comes to UX/UI and interactive design. I love creating software that's not just functional, but also easy to use and nice to look at. My focus is always on making sure the user has a great experience with the software I build.

SKILLS

- HTML, JS, CSS
- jQuery / JSON
- Java
- React JS
- C#
- Photoshop / Illustrator
- Agile/Scrum
- Figma

EDUCATION

BAS, Information Technology | Lake Washington Institute of Technology

2020 – 2024

Computing and Software Development

AAS, Computing & Software Development | Lake Washington Institute of Technology

2020 – 2022
