CLAY KIM

Entry-Level Full Stack Developer

SUMMARY

Information Technology graduate passionate about creating user-focused digital solutions. Skilled in React.js and Node.js, with experience building responsive and scalable systems. Pursuing a career as a full-stack developer.

EDUCATION

SEP 2020 – JUN 2024

BAS, Information Technology | Lake Washington Institute of Technology

WORK EXPERIENCE

SEP 2021 – DEC 2024

Data Privacy Specialist | Peraclete Technologies

- Managed data privacy for over 5,000 clients, primarily from police and government departments, processing an average of 100–200 opt-out requests per client monthly, ensuring a significant reduction in publicly available sensitive information.
- Utilized proprietary tools, such as Magen, to streamline the identification and removal of personal information from multiple online platforms, including PeopleFinder, BeenVerified, and Spokeo, reducing client exposure to privacy breaches and ensuring compliance with data protection standards.
- Collaborated with administrators and back-end developers to address complex opt-out scenarios, resolve discrepancies, and provide timely resolutions to client requests.

PROJECTS

Bible Tracker | Capstone Project

[Demo](#) [Github](#)

- Designed and developed a web application to track Bible verse reading progress, incorporating Chart.js for visualizing user achievements with interactive graphs.
- Integrated AWS RDS (MySQL), Lambda, and API Gateway for a scalable backend, improving application responsiveness by 30%.
- Implemented secure user authentication, boosting retention among test users by 80%.

Artist Portfolio Website

[Demo](#) [Github](#)

- Built a responsive e-commerce website to showcase and sell artwork, ensuring seamless navigation across devices.
- Used React.js for a dynamic, fast-loading UI, improving load times by 20% over traditional HTML designs.
- Enhanced mobile compatibility with adaptive CSS and JavaScript, leading to a 40% increase in traffic during testing.
- Designed an engaging layout and organized content to maximize usability, receiving 90% positive feedback from a group of 50 test users.

SKILLS

- HTML, CSS, JavaScript, React.js
- C++/C# Web Developer Certification
- Agile/Scrum
- Photoshop, Illustrator, Figma
